Dear PARENT

One of the best ways for a young person to improve their wellbeing is to share how they are feeling. The multi-award winning MeeToo app makes it easy to talk about difficult things, and to get support. We are delighted to be partnering with your school to share our expertise and provide additional support for students.

MeeToo gives young people the tools to help themselves, and each other. The app is safe because all posts and replies are checked by human moderators before they go live, and in-house counsellors provide extra support if it is needed. The in-app directory, which is packed with useful resources, enables students to connect directly to your school support services and in the local area.

*“I actually didn’t realise how much better this app can make someone feel. I love being able to ask my own questions and just the experience of trying to help even one other person helps me to feel happier too”* **MeeToo User**

MeeToo is featured on the NHS Apps Library and can be downloaded from the App Store and Google Play. For more information about our approach to confidentiality, safeguarding or any other question please visit [www.meeto.help](http://www.meeto.help)

Yours sincerely,

Kerstyn Comley  
 Co-CEO
